

# **Model UN**

## **6-8th Grade Students**

Middle School Model UN is an opportunity to research specific topics from the past, present, and future. CBA provides our students with specific topics and background guides along with guidelines which will help students to assemble a position paper. These papers are then used as a tool to debate other students from other schools. We will be having our first round of meetings next Wednesday and Friday at 2:30. Grades 7 and 8 will meet on Wednesdays and 6th grade will meet on Fridays.

This club will start next week on 9/14 and go until the early part of December, where we will have our culminating assembly of debate teams at CBA, who will be hosting this exciting event.
