

Model UN

Grades 6th-8th Grade

Model UN (United Nations) is a worldwide organization that gives students in middle school, high school, and college the opportunity to simulate the research, debate, and problem solving of the real UN. As always, topics vary from current, to past, and even the future. Students will have over 2 months to prepare for this exciting platform of debating topics with students from other local schools. Each student's goal is to research and compose a two page position paper in preparation for possible resolutions to the various broad topics presented. Parliamentary procedures are reviewed and enforced during the conference which will take place at Christian Brothers Academy in Lincroft on a Friday in early December. A date has not been determined yet, however, students will be dismissed early from school to attend the event.

Please note that this club is only for 6-8th grade students.

7th and 8th grade students will meet on Wednesdays from 2:30-3:15

6th grade students will meet on Fridays from 2:30-3:15.

If the choice of day is a conflict with another club, please see the club moderators to discuss

This club will start the week of September 11th.

Any questions, please reach out to Mrs. Vacca or Mr. Amnott.
