

OHA Nursing News
Medication needed during School
Pre-K – 8th Grade

Dear Parents,

Medications

Prescription and All Over-the-Counter Medication

Ex. Tylenol, Advil, Motrin, Eye drops

Doctor's Order Form – **Medication Order**

Asthma Medication

Inhaler and Nebulizer Treatment

Please have the doctor check off that your child is capable to self-medicate with inhaler. This is important so your child can carry their own inhaler on class trips.

Doctor's Order Form – **Asthma Action Plan**

Allergy Emergency Medication

Epinephrine Auto Injector / Benadryl

Please bring in 2 auto injectors for the safety of your child.

Doctor's Order Form – **Allergy Emergency Treatment Plan**

If your child/children are in need of any of the above medications, please go to the Oak Hill Academy Website, oakhillacademy.com/students/nurses-corner, to print out the appropriate form to bring to your physician. Please use the forms provided. I need to have the Doctor's order to accept the Medication. All medications must be in original container. Please take care of this over the summer so your child has the medication needed for the start of school in September.

Any questions - lmalinowski@oakhillacademy.com

Sincerely,
Mrs. Malinowski RN
School Nurse
